

Squaw Run Reflections

Marc Poljak

Squaw Run Reflections

The photographs contained in this collection were taken over the course of 4 weeks in May and June of 2009. The location for all the photographs was a small bend in Squaw Run Creek in Fox Chapel, Pennsylvania. The intent of the photographs is to show the abstracting qualities of moving water interacting with light, and its ability to reflect, and distort those reflections, caught in its motion.
